

Crosswalk Marking Guidelines

Environmental Health & Safety Guidelines

- * Crosswalks should be located at traffic controlled intersections; however, they may be installed at other high pedestrian traffic areas as needed
- * Curb cuts should be made at all curb to crosswalk junctions to ensure handi-capped access
- * All crosswalks will be marked in accordance with Ohio Code as below. Also, additional markings or lighting may be used in high hazard areas

RMS will periodically issue guidelines for subjects and situations which affect the safety and health of the campus community. These are not Ohio University policy. They represent best practices and proven methods to reduce incidents.
