**promote your videos on your other social channels and your blog too if you have one the more people who know about your content the more will watch and like it the more you promote your content the more additional followers you are likely to gain and the closer you will be to being considered an influencer**

**there are certain expectations of tiktokers when they upload videos for a start you need to ensure you don t breach tiktok s content guidelines there should be nothing inappropriate in your videos no hate speech racism etc remember that some adults do misuse tiktok so be careful when uploading videos of yourself doing perfectly normal everyday activities that creeps might abuse e g is it really a good idea to upload videos of you and your friends in nighties at a slumber party remember that tiktok is a public social network anybody can view your videos**

unlike with youtube where you sell space on your videos and channel page for advertising at a rate decided by google tiktok does not yet compensate most of its users for running ads on their posted photos as such tiktok influencers and brands don't have an intermediary or any set rates if they choose to work together brands make deals with influencers and prices can vary markedly depending on the circumstances however one thing is consistent in nearly all cases influencers get paid more if they have both a high engagement rate as well as a high number of followers brands have learned that you can easily buy followers who are of no practical value to anybody hence they are far more interested in you having genuine followers those who interact with your posts
