wonder beauty tragedy and a whole gamut of emotions await you in a compelling self driven tale that s one of those surprisingly rare things among video game stories one that could only be told effectively using video game mechanics

big mechs and wall running mechanics go a long way on their own but respawn s take on the fps formula just feels polished in a way that many contemporary shooters don t and is more than partially responsible for its remarkable overnight success with apex legends

with hundreds of titles on offer deciding what to download first can be a bit of a head scratcher dozens of new titles have been added with the addition of ea play and almost the entire bethesda library do you go with a gpu straining triple a blockbuster or opt for an innovative indie title we ve picked our must play favourites from the available selection to get you started

minecraft is a simple game for the most part all about blocks you ll spawn in a random world with nothing to your name and your only task is to survive the night over a decade of fun has been had with minecraft with creators truly pushing the game and their builds to extreme limits in an effort to create something impressive

but really if you can get past the 360 ps3 era feel of some of the gameplay the whole series is as compelling as it ever was and the legendary edition graphical rework makes things a lot easier on the eye as well
