a third reason to focus on gaining real instagram followers is that you'll actually be able to build legitimacy modern day consumers and instagram users are quick to identify accounts that seem fake or seem to have an inflated number of followers with instagram followers who are actually following your account because they like what you post you'll likely have more engagement on each post which means when someone new visits your page people look for this engagement likes comments shares as a litmus test for authenticity accounts with tons of followers but not a lot of likes might appear fake or inauthentic the followers you gain in this way are completely real so they can like and comment on your posts and even share them with their friends if they are interesting after dropping the site link on your video caption take a screenshot and send it to our telegram number 989367435414 however increasing the number of followers is expensive in terms of money and time digi follower has implemented a policy that allows you to increase the number of your followers this is completely free of charge you must follow the instructions and notify the digi follower website managers and the followers will be added to your page as mentioned earlier reaching those first few hundred followers is often the trickiest part of growing a social media audience so why not start by

following friends family coworkers and basically everyone
